6" Canadian Pine Classic Siding
Panels

THE CHAMCLAD® WAY

ChamClad® is revolutionizing architectural design and construction methods across North America and beyond. Our exceptional range of exterior and interior products are setting new standards in the industry.

ChamClad is crafted in Canada from 100% recycled window grade PVC and is committed to providing sustainable solutions for projects that require high performance and minimal upkeep.

Our offerings feature the most realistic wood grain and metallic finishes in the market. These not only enhance visual appeal but also have exceptional weathering performance, resilience against the elements, colour retention, long-lasting durability, low heat build up, and remarkable resistance to scratches and graffiti.
