eci | BuildTools®

What Our Customers Are Saying:

"Having great lines of communication with our clients and trades is instrumental. BuildTools has allowed us to pull all that information into one centralized inbox for each project, so nothing gets missed."

Kevin Schultz
Chief Operations Officer, *Revision LLC*

"Our clients love BuildTools! It's so much easier for them. They can access information without having to track down someone to get answers and can approve items directly from the system."

Marty Fletcher
Director of Production, *Heartland Design & Remodeling*

"BuildTools gives customers peace of mind and allows them to get the whole truth about what's going on with a project. With the app, they can see exactly what was charged and where they are in the process of the build, no more guessing."

Nick Schoenheider
Project Manager, *Regency Builders*

"We've run jobs without ever making a call to schedule work. We keep the online schedule updated and accurate and let the contractors know that they need to pay attention. It works, and we're much more efficient as a result."

Sven Gustafson
President, *Stonewood Builders*

"BuildTools helps me run my business better. It's as simple as that. It's increased my gross margin by 2.5 points per house. It's amazing. I can manage the business better than I ever could the old way."

Mark Molthan
President, *Platinum Series Homes*

"BuildTools was a lot easier to use and navigate, it supported collaboration with trades and other key business partners well, and it gave real-time visibility into where things stood on projects."

Carl Bast
President, *CHB1, LLC*
