This gorgeous balcony features the 4035 Traditional Fireplace shown with the Birch Log Set and Black Glass Fireback.

TEMPEST TORCHES & LANTERNS

Crafted to evoke a captivating atmosphere, these striking gas torches and lanterns boast mesmerizing spiraling flames, thanks to a patented design that harnesses a natural venturi effect of fire, eliminating the need for electricity or a fan.

Take your pick between the sleek transitional aesthetics of the Stainless Steel Tempest Torch or the timeless charm of the Tempest Lantern.

Regardless of your choice, all models offer versatility with four installation options: Ground Post, Deck Post, Pillar Mount, or Wall Mount, allowing you to seamlessly integrate them into your hardscape design.

BUILT TO BE THE BEST

BOLD BEAUTIFUL FLAME.

All the time. In all weather. You can count on a gorgeous dancing flame that is sure to enhance all your outdoor moments.

**3/8" THICK TEMPERED
GLASS WIND GUARD WITH
CHROME HARDWARE.**

Our glass is *TWICE* as thick as the standard. Our robust chrome hardware is resistant to corrosion and the elements.

Reflections of flame and light enhances your view of the fire while shielding the flame from wind.

HEAVY-DUTY STAINLESS STEEL CONSTRUCTION

is resistant to corrosion, heat, and weather elements, ensuring long-lasting performance and peace of mind.

Above: A closer look at the heavy-duty stainless steel construction of our Linear Fire Pit Burner

ALL-WEATHER 24V HOT SHOT™ ELECTRONIC IGNITION is the most robust and reliable ignition system offered in the industry. Our ignition system relies on a consistent hot igniter and doesn't suffer the fallibility that a traditional spark igniter suffers when facing debris such as pine needles, leaves, and water. Our ignitor also features a timed drop out that shuts the gas off in the event the wind blows the fire out.

Our strategically placed **PRE-VALVE WEEP PORT** allows water to drain away from the burner, eliminating potential damage from water and ice.
