

Meet the Modern Alternative to Tile

Classic Weave
Torrone Marble

No other surface compares to the waterproof material of Wetwall. Wetwall is a patented panel system that locks water out without the grout. It's a revolutionary design material that transforms bathrooms and wet spaces more quickly, easily, and with long-term value versus tile.

WHY WETWALL?

- Installs in as little as 2.5 hours
- Single-person job — no need for additional labor
- Grout-free, mess-free, fuss-free
- Stocked locally and readily available for quick lead times — check with your local rep
- Manufactured in Temple, Texas, USA — no material supply stress, with in stock designs shipping in 7–10 days and made to order in 10–14 days

VERSATILE FOR ANY SPACE

Perfect for single-family and multi-family homes, plus hotels, healthcare, senior living, schools, offices, spas, and gyms.

BEYOND THE SHOWER

Use on walls, ceilings, wainscoting, and bath surrounds — wherever water protection meets style.

Features & Benefits

DESIGN VERSATILITY

Bring your creative vision to any wet space with a variety of design aesthetics.

PROVEN PERFORMANCE

Patented waterproof panels with scratch, scuff, and antimicrobial protection ensure lasting performance and long-term value in high-use environments.

FAST, PREDICTABLE INSTALLATION

Lightweight tongue-and-groove panels install quickly with no grout or extended cure time, lowering project costs with fewer materials.

SEE HOW WE STACK UP TO THE COMPETITION

Designs

Our sturdy wall panels create a seamless finish with designs inspired by stones, textiles, woodgrains, and more.
